

Make Your Practice More Efficient and Profitable in 2021

Make 2021 the year you put the focus back on your patients by simplifying your revenue cycle management through automation, efficiency and transparency.

TO DO LIST

Transform your patient experience.

Solution: **Patient Engagement**

Redefine patient satisfaction. Our patient engagement solutions empower you to have informed conversations about eligibility and financial responsibility while reducing hurdles that may impact patient outcomes.

Optimize the claim

Solution: **Claims Management**

Add value to the claims cycle by improving accuracy while increasing processing speed. With direct connections to thousands of payers, our claims management solutions can result in fewer pending claims and less manual intervention.

Reduce payment errors and accelerate appeals.

Solution: **Denials Management Solutions**

Proactive denials management. Gain increased visibility into your revenue and reduce manual work by automating the discovery and appeal of denied claims. Our data-driven solutions identify the root cause of denials—affording you the opportunity to monitor trends and focus on upstream improvements to help stop denials before they happen.

2/3 of American adults worry about surprise bills*

A fully electronic workflow could save **\$29.97** per patient encounter**

63% of denials are recoverable
