

Digitize and eliminate your paperwork with document management software

The TotalMD Document Center is easy-to-use software that allows your office to organize, capture and store:

- Patient insurance cards, driver's licenses, ID cards
- Patient signatures on your own financial, privacy and patient release forms
- All printed documents

Use scanners and signature pads to capture signed documents, forms and electronic signatures!

Consider why medical offices are choosing the TotalMD Document Center:

Store All Types of Documents

Electronically capture and store patient insurance cards, driver's licenses, and patient release forms with signatures as well as other documents.

Seamless Integration to TotalMD and Other Systems

Simply click on the Document Center icon from TotalMD for instant access to all of your patients' previously captured ID cards and signed documents. Finding and retrieving patient documents is so easy, you'll never misplace a patient form again.

Customize Form Letters

Easily create your own unique financial forms and other forms which can be setup to capture your patients' signatures.

Easy to Use and Navigate

Use your mouse to click on easy-to-view folders and links to reprint previously captured documents, sign new documents and/or to display documents.

Low Cost

Priced at a fraction of competitors' products, the Document Center is packed full of easy-to-use, time saving features, providing unparalleled value. This is a must-buy system for those wishing to simplify, streamline and even eliminate their paperwork.

Get TotalMD Document Center for \$25/month per user!
