totalmd

A great solution for practices that want to increase efficiency and improve collections

Detailed Insurance Aging

An interactive screen gets you everything you need to follow up and collect form insurance claims in one screen. You can even record notes as you follow up with the insurance companies!

Easy Payment Posting

Easily post and apply payments from patients and insurance providers. Print a receipt and a statement so patients can clearly see their account history and outstanding balance.

Custom Schedule

Set schedule templates to simplify scheduling and calendar management. Intuitive appointment management and customization options allow the front office staff to schedule with ease.

Comprehensive Ledger

The most incredible ledger on the market! Not only can you view all the financials of a patient but you can add charges directly from the ledger and make any corrections. Plus view claim and statement history. You can get everything you need from one screen.

Reporting and Analytics

Get the reports you need to track the health of your practice. Looking for something specific? We also do custom reports.

Appointment Reminders

Decrease cancellations and no-shows with built-in email appointment reminders. Text and phone reminders are also available as part of the TotalMD Communicator solution, which also includes online scheduling for patients and reputation management tools.
